SHORT HILLS, NEW JERSEY

To the Trade.

WITH BEST wishes for the New Year to the Florists' trade, we submit the following trade quotations on our superior stock of Plants, Seeds and Bulbs, which are in every case of the highest grade to be found on the market.

We invite personal inspection at all times at our Nurseries, which are only about three minutes' walk from the station, and open any day in the year. Intending purchasers would do well, before placing their orders, to take a run out to our place and inspect our stock. We are only eighteen miles from New York City, on Delaware, Lackawanna & Western R. R., and trains leave every hour from Hoboken. Take Christopher or Barclay Street ferries from New York.

As in the past, we will endeavor to serve customers with clean, healthy Plants, Seeds of the latest crop and highest vitality, and Bulbs true to name, up to measurement, and procured from the most reliable growers. Our unequaled facilities in the way of large modern greenhouses, perfect in every detail; extensive herbageous grounds, seed warehouses, bulb cellars, and old and experienced growers, practical in every branch of the business, make it possible for us to guarantee satisfaction with every order shipped.

TERMS.

This List cancels all previous quotations.

All orders from unknown correspondents must be accompanied by remittance or satisfactory reference. Otherwise, goods will only be sent C. O. D.

No perishable goods are sent C. O. D., unless a sufficient remittance accompanies the order to guarantee acceptance on arrival.

Remittances should be made by Post Office or Express Money Order on Short Hills, Bank Draft on New York, or Money in Registered Letter. Checks on local or inland banks often necessitate delay, and are subject to a small charge for collection.

Orders are solicited at as early a date as possible, that we may have ample time for their execution. Please write plainly name, post office, express office, and any other necessary information as to the best method of forwarding.

Prices are quoted subject to short crops, to change without notice, and to the goods being unsold upon receipt of order. We would advise Florists to place their orders early. All imported and domestic bulbs that we offer are direct from the most reliable growers, and can be depended upon as being first-class in every respect. 25 bulbs or plants furnished at 100 rate, 250 at 1,000 rate.

Complaints, if any, must be made within five days after receipt of goods, to receive recognition. We recommend shipping all perishable goods by express, as on all plants shipped by express Florists receive the benefit of the 20 per cent. reduction in charges from regular rates, if packed in closed boxes. No charge made for cases or packing, or for delivery to freight and express depot, except in the case of trees and shrubs, which are charged for at cost; cloth bags are also charged for at cost.

Our pots are all "standard" sizes, and measurements of height of plants are from the top of the pot.

Decorative Plants.

All Plants are Measured from Top of Pot.

PALMS.

Few plants are more useful to the Florist for decorative work, the sale being constant and at all times profitable. Our stock of these plants, it is well known, is second to none in the country, and our prices are the lowest that can be made for first-class stock, and will be found as favorable as any. Our Palms have always given very satisfactory results to all our patrons; being grown in a low temperature, they are very sturdy and hardy, making them much more useful for house culture than those grown in heat. Below we give a list of varieties most in demand. Prices on other varieties not herein mentioned, and on large specimens, will be furnished on application.

CARNATIONS.

New Carnation, W. D. Sloane.

This new variety, which originated in Westchester, Pa., the acknowledged center of Carnation culture, we are sending out this year for the first time under the raiser's description. The plant is a strong and vigorous grower, needing but little support, with dark foliage about as heavy as Tidal Wave. Flowers are large, of good substance and lasting qualities, borne on stiff stems 15 to 20 inches in length; color the same as the above well-known variety, a beautiful cerise. This variety is a profuse bloomer, continuing to bloom late into the summer, and as the flowers sell well, we have no doubt that it will become one of the standard sorts. \$10 per 100, \$75 per 1,000.

New Chrysanthemums.

OUR OWN SET.

We offer for distribution this year the following eight new varieties:

Constance Terrell. Fine Japanese yellow (type of Vivand Morel), with good foliage well up to the flower; flower full and double, and very lasting; dwarf growing, making it fine for pot culture; mid-season.

Consuelo. Very early reflexed Japanese of fine form and substance; flower large, of the most delicate shade of pink; foliage excellent; stem good, well furnished up to the flower. Makes a splendid variety for exhibition purposes, and is especially recommended.

Henry Hurrell. Closely incurved yellow Japanese. Flower very large and lasting; stem and foliage excellent. Unsurpassed as an early flowering, dwarf growing variety.

Miss L. Magee. Early incurved Japanese, with strong stem well furnished with foliage. Very vigorous grower, producing large, full flowers of a beautiful light pink color. Excellent for exhibition purposes.

Miss M. Lear. A fine Japanese incurved, full and double. Flower maroon-red, and does not fade; good stem, well furnished with foliage; mid-season. Makes good specimen plants, as it is a very free grower. The best maroon-red in existence.

Mongolian Prince. True incurved Chinese, with large flowers of a golden bronze color; fine, stiff stems, with foliage well up to the flower; dwarf, but very vigorous grower; mid-season.

Mrs. Harry Toler. Extra large Japanese, with excellent stem and foliage. Flower flesh pink, slightly hairy, full and double; mid-season. Very vigorous grower.

Robert F. Hibson. Early reflexed Japanese. Good, strong grower, producing extra large, perfectly double, creamy white flowers on good, stiff stems, which are furnished with foliage well up the flower. Fine for exhibition or pot culture, as the flowers are very lasting.

50 cts. each, \$5 per doz., \$35 per 100. Delivery, March 1st, 1896.

NEW CHRYSANTHEMUMS OF OTHER GROWERS.

Ready for Distribution March 1, 1896.

GARDENIA.

POMPON CHRYSANTHEMUMS.

This class of Chrysanthemums is rapidly gaining popularity, owing to the fact that they are perfectly hardy, and will flower out of doors during the months of September, October and November without any protection, which makes them especially adapted for private gardens. At the fall exhibitions we took several First Class prizes with these plants. and now offer a selection of the best varieties secured from England, France, Japan and America, in all the leading colors, at 75 cts. per doz., \$6 per 100.

Chrysanthemum frutescens. The Paris Daisy. 2-inch pots, 60 cts. per doz., \$5 per 100; 3-inch pots, 75 cts. per doz., \$6 per 100; 4-inch pots, \$1.25 per doz., \$10 per 100.

We are at all times in a position to supply cut Orchid flowers of the highest quality, in variety according to season, in any quantity, at the prevailing market prices.

Hardy Herbaceous Perennials.

This department has become a great specialty with us, devoting, as we do, many acres of land to the culture of Hardy Plants. The demand is steadily increasing for this class of plants, and Florists should now arrange for a stock for spring delivery. They are especially useful and profitable for cut-flower purposes and for retail trade, being adapted to every soil, situation and exposure, and once planted increase every year in size and beauty.

SEDUM Fabarium. A fine plant for rock-work, with soft, rosy pink flowers. \$1.50 per doz., \$10 per 100.

spectabile. Excellent for beds and borders; also makes a fine pot plant; rosy purple, in clusters. Very free-blooming. \$1.25 per dozen, \$8 per 100.

spectabile album. White flowers. \$1.25 per dozen, \$8 per 100.

SPIRAEA Aruncus. White flowers, produced in many branching spikes. \$2 per doz., \$12 per 100.

astilboides. This new type of Spiraea is handsome and distinct, and cannot be too highly appreciated by Florists as a decorative plant for early forcing. It is dwarfier and much more graceful than *S. japonica*. The flowers are produced in greatest profusion, on branching spikes terminated by elegant dense plumes of pure white, well displayed above the foliage. It is perfectly hardy, and is certain to become the leading variety for market purposes. Certificated both by the Royal Horticultural and Royal Botanical Societies of London. Owing to the recent introduction of this variety, only a limited quantity was grown the past season, but wherever offered it was quickly taken up at much higher prices than the standard sorts. 15 cts. each, \$1 per doz., \$7 per 100.

palmata. A beautiful species, and valuable for cutting; sweet-scented crimson flowers. \$1.50 per doz., \$10 per 100.

ASTERS.

The Bride. The finest new Giant Comet Aster. (Novelty). Unequaled in elegance of form and delicacy of coloring. Difficult to describe, but a revelation when in full perfection of bloom. "White changing to rose" gives but a faint idea of the exquisite shades of color found in this grand novelty. This handsome new variety retains all the popular characteristics of the charming "Comet" section, reminding one, with its long wavy petals, of the large Japanese Chrysanthemums. Rosalind. New Princess Aster. (Novelty.) This superb new Aster is a variety of the now famous Snowball Aster. The flowers are of a most charming bright rose color, the whole plant possessing a beauty and elegance which few other Asters can rival. Per trade pkt., 35c.

Lady in White. A famous variety of last year's introduction. Characterized by its peculiarly beautiful form of foliage. Flowers are semi-globular, a single plant producing not less than 40 buds, and sometimes as many as 70. Per trade pkt., 25 cts.

Branching Aster. A sterling variety, that has leaped into popularity during the past two years. The branching habit of the plant will recommend it to every one; the large white blooms are often mistaken for chrysanthemums. Per trade pkt., 25 cts.

Ball, or Jewel. A beautiful class, which has attained great popularity. Flowers are very double, with symmetrically incurving petals, making them almost exactly spherical.

Apple Blossom. Deep Rose, Crimson, Rose and White, Purple Violet. Each, trade pkt., 15c.

Queen of the Market. Claimed to be the best and earliest Aster in cultivation, and is unsurpassed for cutting and florists' work.

COSMOS.

Golden Yellow. (Novelty.) This unique plant, coming from Mexico, presents an entirely new color of that popular plant, the Cosmos, producing flowers of deep, clear yellow at the end of the numerous slender stems, well furnished with finely divided, glossy green foliage, somewhat resembling the well-known *Tagetes signata fumila*. The numerous flower-heads measure from 1 to 1½ inches across, with fine oval ray florets, and are produced throughout the summer until destroyed by frost. It is a half-hardy annual, and of the simplest culture. Its unique color will, we predict, make it one of our most popular annals. Per pkt., 35 cts.

CYCLAMEN PERSICUM GIGANTEUM.

"California Improved" Cosmos. (Novelty.) A wonderful new strain coming from California, presenting a great range of forms and shades. There are so many shades of color and such a variety of forms that it is impossible to describe them all. In the mixture are monster flowers in pink, white and red, often measuring from 4 to 5 inches across, having the most exquisite forms imaginable. There are flowers with a white ground charmingly flecked with the tiniest pink spots in light and darker shades. Many beautiful shades of crimson are in the mixture, both light and dark. Lilliput Nasturtiums (*Tropaeolum Lobbianum compactum*.) (Novelty.) Entirely distinct from all other varieties and the herald of a new class of Dwarf Nasturtiums—here offered for the first time. The plants are in every respect smaller than the Tom Thumb varieties, and the dainty little flowers are produced in the greatest profusion, and jauntily peering up well above the small cut and bushy foliage, make it one of the prettiest annuals imaginable. While those little wonders produce the various and showy colors common to the old class, it is especially noteworthy that some quite new shades appear among them. It has not yet been possible to fix the separate colors, but the mixture we offer will be found highly effective for groups and borders. Per trade pkt., 25 cts.

PANSY.

“**President Carnot**,” **Blotched Pansy.** (Novelty.) A valuable new variety originated in France, and deserves to be classed with the best known varieties. The flowers are large, of elegant shape, and each of the five pure white petals is adorned with a deep violet blotch which covers the greater part of its surface. The two colors stand out in sharp contrast to each other, and form a very handsome combination, making a group of these handsome Pansies very effective. Per trade pkt., 25 cts.

“**Coquette de Poissy**.” (Novelty.) This beautiful new Pansy is of regular, compact growth, and presents a color that is indeed very striking, being entirely distinct from any hitherto known in the Pansy tribe. It is described by the raiser as “mauve,” and resembles the charming rose-tinted pale blue of the *Cattleya*. For contrasts with other Pansies, and more particularly for bouquets and wreaths, this novelty will be found very suitable. Per trade pkt., 25 cts.

PETUNIA.

hybrida grandiflora fimbriata vittata. (Novelty.) A grand new class of large-flowering Petunias. These splendid Petunias are most of them a dazzling red or purple in color, but all striped with white, which gives them a peculiarly striking aspect. This new class is absolutely distinct from the striped Petunias already known and raised in Naples, Italy. It has been grown with great care for many years, and we are satisfied that it is a most extraordinary plant. Per pkt., 25 cts.

VIOLA CORNUTA.

VIOLA CORNUTA.

La Lorraine. (Novelty.) A handsome new flower belonging to the Pansy and Violet family, which is here offered for the first time in this country. The low-growing plants are covered from March until frost, without interruption, with a multitude of beautiful little flowers, sky-blue in color, with a yellow eye, the lower petals a lighter shade. Per trade pkt. 15 cts.

WALLFLOWER.

The New Annual Variety. (Novelty.) Up to the present, this valuable and popular flower has been known as a Biennial only, which is sown out in June and comes into bloom the next May. Here we offer the first Annual variety, which has the great advantage over the common variety of coming into bloom in June and continuing to flower freely until late in the autumn. Seed sown early in the spring in coldframes, transplanted about the middle of May, will be in full bloom during June, July and August. Per trade pkt., 25 cts.

VEGETABLE SEEDS.

We carry a complete stock of the best leading varieties of Garden Vegetable Seeds, but have not space in this catalogue to give a list with prices. Our handsome "New General Catalogue of Seeds, Plants and Bulbs," is now ready, and we will be only too pleased to forward a copy to any of our customers upon request. Therein will be found a complete list of Vegetables, from which we will allow the trade a special discount of 25 per cent., bringing the prices down to a lower margin than usually offered to the florist trade.

Sweet Peas.

NOVELTIES:

"CUPID." The Wonderful New Dwarf Sweet Pea.

The only dwarf Sweet Pea in existence. Grows only five inches high. A distinct break from all known forms of the Lathyrus family. Flowers of the purest waxy white, foliage of the deepest cypress green. Flowers are the same size as Emily Henderson, but with more substance in the wings and standards than any other Sweet Pea. For gentlemen's boutonnières it will take its place with the violet, rose and carnation.

"EXTRA-EARLY BLANCHE FERRY." Possesses all the popular characteristics of the old Blanche Ferry, and is in bloom two weeks earlier and continues in full perfection longer than any other variety yet introduced. Dwarf, hardy, vigorous and floriferous. Per pkt., 10 cts.; per oz., 40 cts.

"KATHERINE TRACY." An exquisitely beautiful new pink Sweet Pea. Standards are perfectly round, very thick, expanded and nearly flat. Wings are large and broad. Color is a soft but brilliant pink of precisely the same shade in wings and standards. Per pkt., 10 cts.; per oz., 40 cts.

"CELESTIAL." A new color in Sweet Peas that is very striking, a wonderfully tender aerial blue, having the most exquisite tints. Remains fresh a long time after cutting. Per pkt., 20c.

BLANCHE BURPEE. New White Sweet Pea. The immense pure white flowers are borne in great profusion, having strong, erect, stiff standards. Per pkt., 10 cts.; per oz., 50 cts.

BRIDE OF NIAGARA. Double Sweet Pea. The only true double variety. Keel and wings white; banners a clear pink. Every blossom has two or three banners. Per pkt., 25 cts.,
